**Family Situation:**

Trieu Ngan was born in a very poor family. She is the middle one with an older sister who is attending school and a younger sister. Both her parents do not have a stable job. Her father is motorbike taxi driver in the morning and he is night-watchman in the evening. Her mother is a housewife to take care three daughters. Therefore, with their meager income, they can't afford the family's basic needs, school fee for the oldest child and medicine for Trieu Ngan. Besides, they live in a very deprivation situation which is small house with 20 square meters that lack of facilities. In addition, Trieu Ngan suffered from not only congenital heart disease but also cataract. It all makes their live extremely difficult so that her parents can't afford the high cost for Trieu Ngan's surgery. For that reasons, My Linh really needs a help from the benefactors for her surgery and future.

Trieu Ngan's surgery was funded by Ho Chi Minh city Sponsoring Association for Poor Patients and The Vietnam's Projects (Mr. Marny Freedman) through Heartbeat Vietnam of VinaCapital Foundation.
